**THEME: TOUCH SOMEBODY'S LIFE**

*Coordinator: Sis. Doris Corry*

"ALL OF MY LIFE, I WANT TO SERVE THEE, I'D GIVE ALL MY LIFE, SO FULL  
AND FREE."

These words undoubtedly must have been spoken by Joyce Sneed, some years ago, as she started out in her teens to dilligently work for the master. As a young person who decided to do what ever God wanted her to do, she started out with a determined mine to build new roads and conquer all adversities, with only the Cross before and the World behind.

Just like there are many stages in which one goes through to prepare himself to go into the world and cope with all its ups and downs, so it is in the church world, and the work of the master. Joyce started out trying to find a place to work that God would be pleased with. At that time, many positions in the church were open to her, but yet she wanted most to do and be what God wanted her to be. From Sunday School teacher, to YPWV teacher, YWCC to Youth Choir director and on to Senior Choir director. All this went into the moulding of Joyce and eventually led to her call to the missionary field. She found through her many works in the church that there was one in particular which, God most used her and that was working with the choirs and the youth. Yes, this had to be what God wanted her to do. She had found the direction in which she wanted to travel, and she knew God would be pleased with it.

With a burdened for the souls of the young people, and seeing that so many were not involved in any constructive activity in there home churches or in the state, she was led by God in the year of 1968 to organize the California Northwest State Youth Choir for the Youth Congress of that year. At that time she had only thirty choir members. That youth congress went down in history as one of the most unforgettable ones ever held in the state of California Northwest. The choir sung under the annointing of the Holy Ghost and many souls were saved within the choir, and many attending the congress was blessed through their singing. The congress ended in a revival. The young people was so inspired that they encouraged her to continue on with the state choir.

The choir began to grow by leaps and bounds. Membership growing over one hundred. The news of the state choir began to spread all over California. The choir began to make tremendous strides in the field of music. They made numerous apperances throughout the State.

In June 1970 they traveled to Dallas, Texas to the Int'l Youth Congress of the Churches of God in Christ, where they thrill the hearts, and inspired many with their singing, one song especially that rang throughout the congress until its end was IT IS WELL WITH MY SOUL. That song was choosen the Youth Congress song of the year and the choir was named the choir of the year for 1970. After that meeting, news began to spread all over the nation of Joyce Sneed and the Northwest California State Youth Choir.

"THRU ALL MY SUFFERING, AND WHEN I AM BURDENED AND TALKED ABOUT  
YES! I WANT TO LIVE FOR THEE"

As the years went by, and the enemy continued to oppress on every hand and difficulties and disppointments arose which often took her to her knees in fasting and prayer, she was determined to run and not falter; she could say "IVE BEEN REBUKED LORD, I'VE BEEN SCORNE, BUT THROUGH ALL MY TRAILS, I TRIED JESUS AND I KNOW THAT HE'S REAL.
